We just finished six days of extensive shooting at the Content Studio in Gurugram. It's easily one of the best studio's I've worked with in India. The team is talented and friendly. Bharti who owns the space has a heart of gold and looks into each project personally to ensure optimal quality. The equipment and space is all new and up to date. We had a fun and productive six days and created something of long lasting value. Thank you everyone at Content Studio. You guys are awesome.
